La storia dell'Aeronautica Militare attraverso i modelli Italeri

Italeri è da anni licenziatario ufficiale di Aeronautica Militare. Attraverso una collaborazione costante e continua con il prestigioso Partner, Italeri offre una vasta linea di aerei che ripercorrono la storia dell'Aeronautica Militare Italiana. Dai biplani degli anni '30 della Regia Aeronautica, passando per i primi jet degli anni '60, per arrivare ai moderni caccia di quinta generazione, la passione per la ricerca storica e la cura del particolare viene valorizzata attraverso una gamma di modelli in scala apprezzata a livello internazionale.

The history of Aeronautica Militare through Italeri models

Italeri has been an official licensee of Aeronautica Militare (Italian Air Force) for many years. Through a constant and ongoing collaboration with this prestigious partner, Italeri offers an extensive line of aircraft models that trace the history of the Italian Air Force. From the biplanes of the 1930s Regia Aeronautica to the first jets of the 1960s, and up to the modern fifth-generation fighters, Italeri highlights its passion for historical research and attention to detail through a range of scale model kit appreciated internationally.

Dall'Italia con passione *From Italy with passion*

traditions

innovation

passion

L'Italeri nasce 64 anni fa a Bologna dalla grande passione di Giuliano Malservisi e Piero Parmeggiani. Una lunga esperienza nel mondo del modellismo statico sempre in equilibrio fra tradizione e innovazione, Italeri si caratterizza per la continua ricerca di soggetti originali in varie categorie (aerei, mezzi militari e civili, navi, soldatini, accessori per diorami, ecc) di sicuro interesse per gli appassionati.

L'azienda, che rimane saldamente nelle mani delle famiglie dei fondatori, mantiene progettazione e produzione in Italia. Questo garantisce il controllo diretto sulla qualità dei prodotti e sulla scelta dei modelli, facendo dell'Italeri un punto di riferimento internazionale del modellismo "Made in Italy".

made in Italy

Italeri was born 64 years ago in Bologna from the great passion of Giuliano Malservisi and Piero Parmeggiani. With extensive experience in the world of static modeling, always balancing tradition and innovation, Italeri stands out for its ongoing pursuit of original subjects in various categories (aircraft, military and civilian vehicles, ships, figures, diorama accessories, etc.) that are sure to appeal to enthusiasts.

The company, held firmly into the founders' families hands, keep the design and production in Italy. This allows the direct control of the products' quality and the models' selection, making Italeri an international point of reference of the "made in Italy" scale models.

original subjects

Follow us!

Continua inoltre la nostra grande attenzione ai Social Media. Le "Official Pages" Italeri su Facebook, Instagram, X e YouTube cresciute in modo significativo per numero di followers, sono un'importante fonte di comunicazione e di condivisione informativa su nuovi prodotti, eventi, e utili notizie storico-modellistiche. Ma soprattutto sono un contenitore online da dedicare ai nostri Amici Modellisti, in tutto il Mondo, e ai loro fantastici modelli realizzati con i nostri kit in scala. Questa è la missione di Italeri: diffondere sempre di più la cultura del modellismo e la passione per il nostro fantastico hobby.

Our strong focus on Social Media continues. Italeri's "Official Pages" on Facebook, Instagram, X, and YouTube, whose follower numbers have grown significantly, are an important channel for communication and information sharing about new products, events, and useful historical-modeling news. But above all, they are an online space dedicated to our Modeling Friends around the world and to their fantastic models built with our scale kits. This is Italeri's mission: to spread model-building culture and the passion for our fantastic hobby more and more widely.

NEW 2025**3670 Lancia Fulvia HF 1:24**

Dall'Italia con furore

L'elegante coupé sportivo del celebre marchio Italiano Lancia. La linea accattivante, le prestazioni ed un buon rapporto qualità-prezzo furono i principali fattori di successo. Dalla versione stradale venne derivata la mitica Lancia Fulvia HF che divenne una vera e propria icona delle competizioni off-road dove ottenne importanti successi nei Rally di tutto il mondo che culminarono con la conquista del Campionato Internazionale costruttori nel 1972.

From Italy with fury

The elegant sports coupé from the famous Italian brand Lancia. Its captivating design, performance capabilities, and good value-for-money were the key factors driving its popularity. The commercial version served as the basis for the legendary Lancia Fulvia HF, which became an iconic car in off-road competitions. This model achieved significant victories in rallies across the globe, culminating in the triumph of the International Constructors' Championship in 1972.

La Regina della Belle Epoque

Concepita da Mercedes come vettura dedicata al mondo delle competizioni, era in grado di raggiungere una potenza massima di 300 CV a 3400 giri/min. Fu un vero e proprio punto di riferimento nel mondo delle corse negli anni '30 confrontandosi spesso con altre celebri auto dell'epoca. Va ad allargare la linea Italeri in scala 1:12 dedicata alle auto iconiche della storia come l'Alfa Romeo 8C 2300 o la Bugatti Type 35C.

The Queen of Belle Epoque

NEW 2026

Designed by Mercedes as a car dedicated to the world of racing, it was capable of reaching a maximum power of 300 HP at 3400 rpm. It became a true benchmark in the racing world of the 1930s, often competing against other famous cars of the era. It expands Italeri's 1:12 scale line dedicated to iconic cars of history, such as the Alfa Romeo 8C 2300 and the Bugatti Type 35C.

The Vespa celebrates its 80th anniversary

The Vespa PX, the legendary "Vespone", is the most produced and best-selling Vespa model ever, with over 3 million units. Presented at the Milan Motor Show on October 10, 1977, it was produced until 2017. Even today it remains a true two-wheeled icon with enthusiasts all over the world.

3972 IVECO S-Way Low Roof 1:24

Continua evoluzione

Italeri, punto di riferimento internazionale nei modelli in scala dei camion, allarga la sua linea con l'Iveco S-Way Low Roof. L'Iveco S-Way, sviluppato per essere l'erede del celebre Iveco Stralis, è un camion di ultima generazione, prodotto a partire dal 2019, ed è stato progettato per garantire la massima efficienza sui trasporti a lunga distanza.

Constant evolution

Italeri, an international reference point for scale truck models, expands its line with the Iveco S-Way Low Roof. The Iveco S-Way, developed as the successor to the renowned Iveco Stralis, is a next-generation truck produced since 2019 and designed to ensure maximum efficiency for long-distance transport.

S.79 Sparviero 1:48

L'S-79 Sparviero venne impostato negli anni '30 dall'azienda italiana SIAI-Marchetti stabilendo, per l'epoca, importanti record mondiali di velocità. Caratterizzato dalla sua tipica configurazione a tre motori, ad ala bassa, aveva una struttura in legno, tela e metallo. Successivamente declinato nelle versioni militari, venne largamente impiegato dalla Regia Aeronautica durante la Seconda Guerra Mondiale in particolar modo nel teatro operativo del Mediterraneo come efficace aerosilurante.

The S-79 Sparviero was developed in the 1930s by the Italian company SIAI-Marchetti, setting several significant world speed records for its time. Featuring its distinctive three-engine, low-wing configuration, it had a mixed wood, fabric, and metal structure. Later adapted into military versions, it was widely used by the Regia Aeronautica during World War II, especially in the Mediterranean theater, where it proved to be an effective torpedo bomber.

NEW 2026

M-346 Master 1:72

L'M-346 Master è un aereo da addestramento avanzato per la formazione dei piloti militari di ultima generazione. Dotato di sistemi di volo ed avionica estremamente evoluta, analoga ai caccia più moderni, il "Master" può essere impiegato anche per missioni operative grazie alla sua flessibilità. E' stato presentato come il futuro velivolo della Pattuglia Acrobatica Nazionale "Frecce Tricolori", erede del longevo MB-339.

The M-346 Master is an advanced trainer aircraft designed for the formation of new-generation military pilots. Equipped with highly sophisticated flight systems and avionics similar to those of modern fighter jets, the "Master" can also be used for operational missions thanks to its flexibility. It has been presented as the future aircraft of the Italian Pattuglia Acrobatica Nazionale "Frecce Tricolori", succeeding the long-serving MB-339.

Macchi C.200 1:32

Un monoplano per l'aeronautica

Nonostante le resistenze da parte dei piloti, dopo la guerra civile spagnola la Regia Aeronautica sa di avere bisogno di aerei più veloci: serve un monoplano. Castoldi, lo stesso progettista di idrocorsa vincenti nella Coppa Schneider, risponde alle richieste con questo modello. Un caccia capace di tenere testa a quasi tutti i suoi avversari dell'epoca.

A monoplane for the Regia Aeronautica

Despite resistance from the pilots, after the Spanish Civil War, the Regia Aeronautica realizes the need for faster aircraft: a monoplane is required. Castoldi, the same designer of winning seaplanes in the Schneider Cup, responds to the demands with this model. A fighter plane capable of holding its own against almost all of its contemporaries.

NEW 2025

NEW
MOULDS**

NEW 2026**2840 MC 202 Folgore 1:48**

Il Macchi MC 202 Folgore ha costituito una decisa innovazione per i reparti da caccia della Regia Aeronautica. Straordinariamente bello da un punto di

vista aerodinamico, era equipaggiato con i potenti motori in linea tedeschi DB 601 prodotti su licenza dall'industria aeronautica italiana. Le nuove motoriz-

zazioni e la solidità del progetto aeronautico dotarono la Regia Aeronautica di un caccia in grado di combattere "alla pari" con i caccia alleati.

The introduction of the Macchi MC 202 Folgore was a significant development for the fighter squadrons of the Italian Regia Aeronautica.

Stylishly designed from an aerodynamical perspective, it was fitted with the powerful German DB 601 engine produced under license by the Italian aeronautical industry.

The engine and overall aeronautical performance of the aircraft provided the Regia Aeronautica with a fighter capable of actively engaging Allied fighters.

1:32****NEW 2026****90842****Eurocopter
Tiger
1:48**

Durante la Seconda Guerra Mondiale, i piloti da caccia che avevano abbattuto numerosi aerei nemici venivano dichiarati "Assi". Solitamente, per la maggior parte delle aeronautiche, si veniva accreditati come "assi" dopo aver conseguito cinque abbattimenti confermati. Molti di questi piloti divennero delle vere e proprie leggende nel proprio Paese ed utilizzati dalla propaganda come sinonimo di coraggio, eccellenza aeronautica, leadership e senso del dovere. La linea dedicata Italeri vuole celebrare il coraggio di questi celebri piloti ma anche sottolineare l'importanza di come il modellismo può valorizzare e raccontare la Storia.

During World War II, fighter pilots who had shot down numerous enemy aircraft were declared "Aces." Typically, in most air forces, a pilot would be credited as an "Ace" after achieving five confirmed kills. Many of these pilots became true legends in their own countries and were used by propaganda as symbols of courage, aeronautical excellence, leadership, and sense of duty. The Italeri dedicated line aims to celebrate the courage of these renowned pilots while also highlighting how modeling can preserve and narrate History.

Kfz. 305 Opel Blitz Typ A 4x4 1:35

Il camion medio Opel Blitz ha costituito la spina dorsale della logistica e dei trasporti dell'Esercito Tedesco durante la Seconda Guerra Mondiale. Realizzato in un numero significativo di esemplari si caratterizzava per la sua flessibilità e robustezza di impiego che veniva ulteriormente esaltata nella configurazione a quattro ruote motrici.

The medium truck Opel Blitz was the backbone of logistics and transport for the German Army during World War II. Produced in a significant number of units, it was known for its flexibility and robustness, qualities that were further enhanced in the four-wheel-drive version.

M1 Abrams TUSK 1:35

Il carro armato di terza generazione M1 Abrams costituisce la spina dorsale delle divisioni corazzate dell'esercito Americano e del Corpo dei Marines. Ha operato su numerosi teatri operativi evolvendosi nella configurazione. L'Abrams TUSK (Tank Urban Survival Kit) venne migliorato nella blindatura per renderlo più idoneo ai combattimenti in aree urbane ad alta intensità di rischio.

The third-generation M1 Abrams tank is the backbone of the armored divisions of the U.S. Army and Marine Corps. It has operated in numerous theaters, evolving through various configurations. The Abrams TUSK (Tank Urban Survival Kit) was improved in its armor to make it more suitable for combat in urban environments.

6751 Semovente M43 da 105/25 "Bassotto" 1:35

Potenza formato tascabile

Per far fronte alla gara tra corazze sempre più efficaci e armi capaci di penetrarle, nel 1943 Ansaldo presenta al Regio Esercito un cannone da 105mm montato del suo progenitore nonostante il calibro aumentato, si guadagna il soprannome di "Bassotto". Anche il modellino in scala 1:35 segue le orme dell'originale, con nuovi interni, cannone e scafo.

Pocket sized firepower

To cope with the competition between increasingly effective armor and weapons capable of penetrating them, in 1943 Ansaldo presented to the Royal Army a 105mm cannon mounted on the chassis of the M42 self-propelled gun. Lower by 10 cm compared to its predecessor despite the increased caliber, it earns the nickname 'Bassotto' (Dachshund). The 1:35 scale model also follows the footsteps of the original, featuring new interiors, cannon, and chassis.

La linea più vasta e completa dedicata ai veicoli militari Italiani della Seconda Guerra Mondiale

Il grande successo riscosso dalle più recenti produzioni ha confermato l'interesse dei modellisti di tutto il mondo per i nostri kit con una particolare attenzione per i mezzi corazzati e blindati utilizzati in Nord Africa e durante la campagna d'Italia. Veicoli militari che non possono mancare in una collezione di mezzi corazzati spesso ideali per realizzare interessanti diorami. Dalla celebre autoblindo AB41, al carro pesante P40 sino all'attesissimo Semovente M43 Bassotto, la linea Italeri ripercorre un pezzo importante della Storia Militare della Seconda Guerra Mondiale.

The most extensive and comprehensive line dedicated to Italian military vehicles from World War II

The great success of recent releases has confirmed the interest of modelers worldwide in our kits, with particular attention to the armored and tank vehicles used in North Africa and during the Italian Campaign. These original military vehicles are essential for any collection of armored vehicles and are often ideal for creating engaging dioramas. From the famous AB41 armored car to the P40 heavy tank and the much-anticipated Semovente M43 Bassotto, the Italeri line revisits an important chapter of World War II military history with a high level of attention and detail.

NEW 2025

**NEW
PARTS**

La Regia Marina Italiana, sin dalla Prima Guerra Mondiale, ha prestato una grande attenzione allo sviluppo di piccole e rapide imbarcazioni armate generalmente di siluri. I motoscafi armati siluranti, più conosciuti con la sigla MAS, erano imbarcazioni di diretta derivazione civile. Nel corso della Prima Guerra Mondiale i risultati ottenuti sono stati assolutamente significativi. Nonostante fossero adatti a mari chiusi e poco mossi come l'Adriatico, la Marina Italiana continuò a lavorare per migliorarne le prestazioni attraverso unità dedicate di sviluppo. Un'ulteriore spinta al loro utilizzo si ebbe durante la Seconda Guerra Mondiale dove i MAS, di nuova concezione ed equipaggiati con motori più affidabili e potenti, vennero impiegati sia come siluranti sia come piattaforme antisommergibile.

The Italian Regia Marina, since World War I, devoted significant attention to the development of small, fast vessels typically armed with torpedoes. These motor torpedo boats, better known by their acronym MAS (Motoscafi Armati Siluranti), were directly derived from civilian designs. During World War I, the results achieved by these boats were remarkably significant. Although they were particularly suited for enclosed and relatively calm waters like the Adriatic Sea, the Italian Navy continued efforts to improve their performance through dedicated development units. Their use saw a further boost during World War II, when the MAS, redesigned and equipped with more reliable and powerful engines, were employed both as torpedo boats and as anti-submarine platforms.

- Easy to assemble
- A3 cutting mat included

Fate largo agli Acrilici di terza generazione

La qualità e le caratteristiche dei colori sono alla base della creatività e della forza interpretativa dei modellisti. Portare la linea Italeri AcrylicPaint a un livello superiore adeguandola agli acrilici di nuova generazione era un passo dovuto. Per questa ragione, a partire dal 2026, faremo squadra con AK Interactive utilizzando la loro rinomata formulazione di acrilici di terza generazione nei nostri prodotti. **Queste vernici posseggono una forte pigmentazione e coprenza, e sono formulate specificatamente per essere applicate a pennello e ad aerografo direttamente su modellini e fotoincisi.**

L'obiettivo è quello di mantenere i vantaggi di una vernice acrilica (prodotta secondo le regolamentazioni europee quindi priva di sostanze nocive per la salute dell'utilizzatore e dell'ambiente) e risolvendo contemporaneamente problemi come l'adesione, la copertura e gli intasamenti dell'aerografo.

AK 3GEN
ACRYLICS

Make way for third generation acrylics

The colors' quality and performances are the foundation of the modelists' creativity and interpretative forces. Taking the Italeri AcrylicPaint to the next level, adapting it to the new generation acrylic was a mandatory step to take. For this reason, starting in 2026, we are teaming up with AK incorporating their renowned third-generation acrylic formula into our products. **These paints feature high opacity and pigmentation, and they are specially formulated to be applied by brush and airbrush to scale models and photoetched parts.**

We aim to maintain the acrylic paint advantages, like being made in accordance with European regulations (thus ensuring that no harmful substances are used that could pose a risk to the health of the user and the environment) and solving issues like grip, coverage and airbrush clogging.
